Summary:

The Project Engineer supports the engineering activities for the company and is primarily focused on providing technical support to the Operations and Sales teams. The position reports to the USA Engineering Manager and is based primarily in the Houston corporate office but will require travel to field locations in both Canada and the USA.

Job Description:

Responsibilities for the Project Engineer include but are not limited to:

1. **Safety Champion:** Help promote a proactive and positive safety culture within Certarus.
2. **Operational Support**
 - Provide technical assistance to field and visit customer sites as needed, either remote or in person.
 - Procure critical parts as needed to support ongoing contracts.
 - Consistently audit equipment parameters in SCADA.
 - Act as technical liaison to vendors.
 - Research regulatory requirements and execute changes to achieve compliance.
 - Support ongoing development and execution of the Certarus Training Program.
 - Write Safe Working Procedures, equipment manuals, training materials, and any other documentation relevant to mitigating safety risks or improving Certarus' operations.
3. **Applications Support**
 - Provide technical expertise during customer office and/or field site visits.
 - Assist in new site walk throughs
 - Support sales team in accurately defining project scope and costs.
 - Complete detailed designs of major customer projects.
 - Coordinate and manage construction of required onsite infrastructure.
4. **Continuous Improvement:** Build tools and processes to standardize or simplify day to day work and improve consistency.

Requirements:

- 1) Bachelor's degree in engineering
- 2) 5-10 years in a hands-on engineering role within an industrial business. Oil field experience preferred.
- 3) Experience with controls, piping systems, and compressed gases strongly preferred.
- 4) Ability to travel.
- 5) Excellent communication skills.
- 6) A self-starter with relentless habits in line with Certarus core values.

Certarus offers a competitive compensation package, including benefits and 401K plans as well as employee ownership opportunities. Above all, we offer unlimited career advancement opportunities with a dynamic, rapidly growing organization.
