

## Regional Technician – Texas

Certarus USA Ltd (“Certarus”), a leader in the delivery of natural gas fuel, has an opening for a Regional Technician to join their team in Orla, Texas. Certarus is a private company with a focus on operations in key US shale plays and Western Canadian industrial operations.

### Summary

The Regional Technician will be responsible for the safe operation of Certarus’ bulk CNG filling stations in Orla and Garden City, Texas. This position will report directly to the Regional Supervisor. The role will be responsible for supporting CNG delivery operations, facilities management, logistics, and maintenance. You will provide technical assurance for the efficient and optimum running of the natural gas compression station, transport trailers, and mobile decompression units.

### Job Description

Responsibilities for the Regional Technician include but are not limited to:

- Assisting with the overall plant and fleet operations in the Permian region, while assisting to maintain a safe working environment
- Provide preventative and corrective field mechanical service on gas compression and process equipment on both Certarus and customer sites
- Move and setup equipment from location to location as CNG demands move
- Ensure that internal policies and government safety and regulatory standards are met

### Requirements

- Must live within 45 miles of Orla, TX or willing to relocate. No exceptions.
- 5 – 10 years Oil & Gas experience
- 3 – 5 years of experience working on natural gas compressors
- Significant experience in process equipment, engine, compressor mechanics, and gas compression
- Technical training and experience in electrical and/or instrumentation disciplines
- Excellent communication skills, interpersonal skills and an ability to deal tactfully with a wide range of personalities

Relocation Benefits: No

Certarus offers a competitive compensation package and the ability to join a dynamic growing company within the oil & gas sector.
