

**CERTARUS LTD. ANNOUNCES EXECUTION OF A LONG TERM COMPRESSED NATURAL GAS SUPPLY AGREEMENT
WITH A MULTI-NATIONAL EUROPEAN ENERGY SUPERMAJOR**

HOUSTON, TEXAS (April 30, 2019) Certarus Ltd. ("Certarus" or the "Corporation") is pleased to announce that it has entered into a long term compressed natural gas supply agreement with a Multi-National European Energy Supermajor ("Supermajor") for the implementation of bulk compressed natural gas to service its electric hydraulic fracturing operation(s) in West Texas.

This agreement further showcases the growing demand for bulk compressed natural gas ("CNG") service within West Texas, including the Delaware and Midland basins, for end users currently not serviced by pipeline natural gas supply. Certarus has developed a North American wide bulk CNG platform to bring cost effective, environmentally friendly, natural gas safely and reliably to end users. Sourcing compressed natural gas via local high-pressure pipelines within the West Texas basins will provide a regional supply of clean, cost effective energy to help support corporate and government mandates promoting cleaner burning fuels.

"We are seeing an increasing adoption of CNG to displace diesel, propane and bunker oil to promote cost savings and reduce environmental footprint. Certarus operates the largest bulk CNG trailer fleet in North America and has built over 18 large-scale bulk CNG compression hubs across Canada and the US." said Nathan Ough, Vice President of Certarus.

Based on this strategic agreement, Certarus will displace a minimum of 8,000,000 gallons (30,000,000 Liters) of diesel fuel with clean burning CNG with the option for the Supermajor to expand up to 35,000,000 gallons (132,000,000 Liters) during the 2-year term.

The Corporation has invested significant resources to build-out a reliable compressed natural gas platform to supply both dual fuel and electric hydraulic fracturing operations. Energy companies across North America, including Shell, EOG Resources, Devon, CNX Resources, and Apache have entered into contracts for electric hydraulic fleets, in some cases with terms up to four years.

Certarus expects to commence CNG supply to Supermajor in Q1 2020 in parallel to a larger audience of end users converting to compressed natural gas.

ABOUT CERTARUS

Certarus Ltd is the North American market leader in providing a fully integrated bulk compressed natural gas (CNG) solution. The primary business is the creation of a "Virtual Natural Gas Pipeline" through the compression, transportation and integration of CNG for the utility, energy services, mining, forestry, agricultural and industrial sectors.
